

1 43. (New) The computer program product of claim 41 wherein the code for
2 performing the first function faxes a single copy of the image data corresponding to the pages
3 which have been scanned more than once.

1 44. (New) The computer program product of claim 41 wherein the code for
2 performing the first function communicates a single copy of the image data corresponding to
3 the pages which have been scanned more than once via a communication link.

1 45. (New) The computer program product of claim 41 wherein the code for
2 performing the comparisons between the extracted feature sets uses Hausdorff distance metrics
3 to perform the comparisons.

1 46. (New) The computer program product of claim 41 wherein the code for
2 performing the comparisons between the extracted feature sets uses Euclidean distance metrics
3 to perform the comparisons.

1 47. A computer program product stored on a computer-readable medium for
2 copying a multi-page document, the computer program product comprising:
3 code for scanning in a plurality of document pages to capture image data for
4 each of the plurality of pages;
5 code for storing the image data for each of the plurality of pages; and
6 code for comparing the image data for each of the plurality of pages to identify
7 twice scanned pages.

REMARKS

Claim 18 has been canceled without prejudice. New claims 22-47 have been added to claim aspects of the present invention. Claims 22-47 remain pending in this application after entry of this amendment.

CONCLUSION

In view of the foregoing, Applicants believe all claims now pending in this Application are in condition for allowance. The issuance of a formal Notice of Allowance at an early date is respectfully requested.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,

S. B. Kotwal
